

Suzhou coating Technology Co. Ltd. Capacity doubled

CemeCon has doubled the capacity of the premium coating center in Suzhou, China.

Premium coating center for HiPIMS and Diamond in Suzhou

The consistent quality thinking of CemeCon convinces the chinese market: “Our premium coatings for cutting tools are very much respected at the chinese precision tool manufacturers. This forced us to expand our capacities of premium coating technology” says Tian Xian, General Manager of CemeCon China.

The product range of coatings available in the Chinese market has been extended by the coating service. Now the most advanced HiPIMS and Diamond coatings are available in China in CemeCon's standard premium quality.

Because of the big success the area for production, offices and customer training has been doubled. Last but not least the name has been officially changed to "CemeCon Suzhou Coating Technology Co. Ltd."
